

BOTTOM UP!

SOVEREIGNTY vs. EXPLOITATION

ECOTOPIA BIKETOUR 2014

Ecotopia Biketour is an eco-mobile do-it-yourself community that has been practising aspects of activism, alternative ways of organising and sustainable living throughout different areas of Europe for over 20 years.

The Biketour is for anyone interested in environmentalism, DIY, activism, community life and learning experientially from cultures, from challenges, and from each other. Ultimately, it is whatever you make of it! **You are the Biketour!**

When on the road, we share skills, practice consensus and act communally to create an informal and non-hierarchical environment. We cook local vegan food using a self-built rocket stove, camp and move everything by sheer pedal power on bikes and trailers – we are an evolving intentional community!

We visit projects in the fields of self-reliance, low-impact communal living, social and environmental activism and cycling, to learn from them and while helping out in exchange.

From 11th July until the end of September Ecotopia Biketour will be cycling through the Southern Balkans

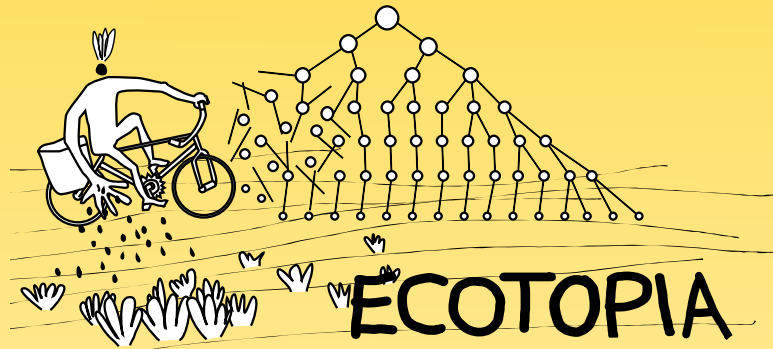

10 JULY UNTIL
30 SEPTEMBER
